260m²

A deceptively spacious 5 bedroom, 3 bathrooms, 3 living room and 3 kitchen property located in the countryside of Alora Malaga province. What seems at first a compact country villa just expands and expands revealing a range of living areas and numerous terraces, patios footpaths and garden corners. To the side of the main house is a self-contained apartment, ideal as granny flat or guest apartment. Further ancillary accommodation may be found adjacent in the grounds with a high quality wooden chalet arranged as studio style accommodation. This property is suitable as a comfortable home or for rural tourism. The main house has two double bedrooms (the master has air conditioning), a family sized shower room, a well fitted kitchen and large living area with wood burner in a Spanish fire place and doors to a full width terrace fitted with retractable glass curtains which allow it to be used all year round for sheltered dining and entertaining. To the side of the house there is another very large covered terrace with steps up to a further raised terrace, with 360 degree views across the valleys / mountains and covered seating area with sun blind. The covered terrace has views across the valley and to the El Chorro and El Torcal mountains...
