This is a traditional Andalusian cortijo built in 1960 that still preserves many of its original architecture and where you can enjoy a peaceful atmosphere, with incredible views overlooking the olive fields toward the lake of Iznajar. On the way to the property you can enjoy exceptional and unique views. Once you get it there is a parking area next to the pool, which is located on the upper part of the farm, and from where you can enjoy spectacular views. The gresite pool measures about 8 x 4 meters and next to it there is a BBQ area with pergola/gazebo. Next to the pool there 2 stables as well as a fenced area for them. The main entrance to the house is via a large metal double gate that leads to the front of the house, where there is a large esplanade perfect for parking or games area. At the front facade there is a large porch with arches perfect for shade in summer and al fresco dinners. The porch leads to a paved sunny terrace and then there is a garden that gives more privacy to the house. From the porch there is access directly to a spacious and cozy living room with fireplace, to the right there...
